

What can we offer you?

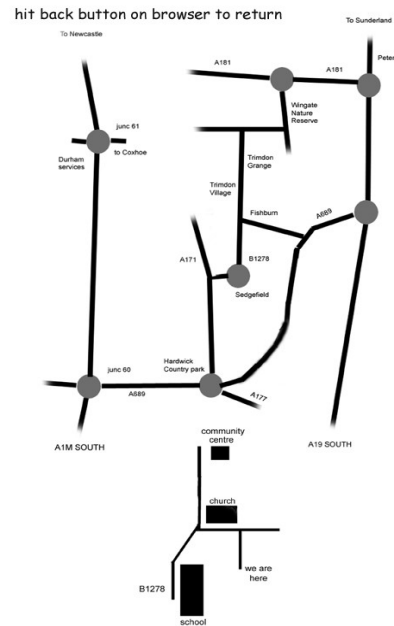

We are a small organic hardy plant nursery and look after five National Plant Collections.

We have a fully equipped classroom to provide you with lots of hands on experience in growing and managing plants.

All refreshments and meals provided as part of the courses and at our GTBS Gold Award Four Star Bed and Breakfast are organic, Fairtrade and local produce, much of the fruit and vegetables coming from our garden and allotment in season, and on our specialist plant days, the meals will be themed around the plants covered.

Other topics and talks for groups can be offered if required. Please ask or see Web site for additional courses offered.
